Introduction ix

Laser-assisted Chemical Vapour Deposition of Thin Films

The influence of heterogeneous and homogeneous reactions in laser–chemical processing 1
N. Kirichenko and D. Bäuerle (Linz, Austria)

Kinetics in thermal laser-assisted chemical vapour deposition of titanium carbide 8
H. Westberg, M. Boman and J.-O. Carlsson (Uppsala, Sweden)

KrF laser deposition of chromium films from $Cr(CO)_6$: *in situ* detection of film growth by laser transmission experiments 15
L. Konstantinov (Sofia, Bulgaria), R. Nowak and P. Hess (Heidelberg, Germany)

Chemical vapour deposition of amorphous hydrogenated silicon with a CO_2 laser: chemical mechanism 29
K. Hesch, H. Karstens and P. Hess (Heidelberg, Germany)

Photoepitaxy by Lasers and Synchrotron Radiation

Irradiation effects of synchrotron radiation on silicon epitaxial growth using a disilane molecular beam system 40
J. Takahashi, Y. Utsumi, H. Akazawa, I. Kawashima and T. Urisu (Kanagawa, Japan)

Mechanisms of low temperature epitaxial silicon growth using ArF excimer laser photochemical vapor deposition from disilane 48
B. Fowler, S. Lian, S. Krishnan, L. Jung, C. Li, D. Samara, I. Manna and S. Banerjee (Austin, TX, USA)

Photodissociation of trimethylindium on Si(111) at 193 nm 58
S. Shogen, Y. Matsumi and M. Kawasaki (Sapporo, Japan)

ArF excimer laser chemical vapor deposition a-Si:H/a-Al_xO_{1-x} superlattices 62
K. Uwasawa, F. Ishihara and S. Matsumoto (Yokohama, Japan)

Temporal evolution in the UV-laser-induced deposition from $Mo(CO)_6$ 68
R. Alexandrescu (Bucharest, Romania), A. Andrei (Pitesti, Romania), I. Morjan (Bucharest, Romania), S. Mulenko (Kiev, Ukraine), M. Stoica and I. Voicu (Bucharest, Romania)

Photochemical growth of GaN and AlN on sapphire (0001) and GaAs(100) 75
P. C. John, J. J. Alwan and J. G. Eden (Urbana, IL, USA)

Photodeposition of Metallic Films

Laser-induced chemical vapor deposition of metals for microelectronics technology 80
T. H. Baum and P. B. Comita (San Jose, CA, USA)

Laser synthesis of thin films of metal silicides 95
E. D'Anna, G. Leggieri and A. Luches (Lecce, Italy)

Formation of silver metal films by photolysis of silver salts of high molecular weight carboxylic acids 109
Y. Yonezawa, Y. Konishi, H. Hada (Kyoto, Japan) K. Yamamoto and H. Ishida (Shiga, Japan)

Laser-induced deposition of tungsten from tungsten hexachloride 122
R. Kullmer, P. Kargl and D. Bäuerle (Linz, Austria)

Laser direct writing of tungsten from WF_6 137
M. Meunier, R. Izquierdo, P. Desjardins, M. Tabbal, A. Lecours and A. Yelon (Montréal, Que., Canada)

Laser Photodeposition of Semiconductor Thin Films

Photo-excited processes related to semiconductor technology 144
M. Hanabusa (Toyohashi, Japan)

Narrow gap IV–VI thin films produced by quasi-continuous-wave CO_2-laser-induced evaporation 151
S. V. Plyatsko, Yu. S. Gromovoj and F. F. Sizov (Kiev, Ukraine)

Continuous wave Nd:YAG laser deposition of CdS thin fims 157
X. W. Wang, F. Spitulnik, B. Campell, R. Noble, R. P. Hapanowicz, R. A. Condrate, Sr. (Alfred, NY, USA), L. P. Fu and A. Petrou (Buffalo, NY, USA)

Photodesposition of Insulators

Deposition of optical coatings by laser-assisted evaporation and by photo-assisted chemical vapor deposition 161
H. Sankur (Thousand Oaks, CA, USA)

Photo-induced chemical vapour deposition of silicon oxide thin films 170
P. González, D. Fernández, J. Pou, E. García, J. Serra, B. León and M. Pérez-Amor (Vigo, Spain)

Particulates in laser-deposited copper oxide films 182
C. Ortiz (San Jose, CA, USA), F. Vega and J. Solis (Madrid, Spain)

Photodeposition from Liquid Phases

Laser-assisted cluster deposition from the liquid phase 187
G. A. Shafeev (Moscow, Russian Federation)

Photodeposition of thin cadmium films from CdS colloid solutions 193
V. Weiss, A. A. Friesem (Rehovot, Israel) and A. Peled (Holon, Israel)

Continuous-wave laser photodeposition of amorphous selenium films 201
A. Peled (Holon, Israel), A. A. Friesem (Rehovot, Israel) and K. Vinokur (Holon, Israel)

Laser Treatment of Surfaces

Laser irradiation of amorphous thin films 209
C. Oritz and A. Blatter (San Jose, CA, USA)

Synthesis of thin films of semiconductor and refractory metal nitrides by laser irradiation of solid samples in ambient gases 219
E. D'Anna, G. Leggieri and A. Luches (Lecce, Italy)

Modification of surfaces with new eximer UV sources 231
H. Esrom (Heidelberg, Germany) and U. Kogelschatz (Baden, Germany)

Photodeposition sputtering of titanium and TiN thin films 247
T. M. Nenadović, T. P. Mihać and Z. Lj. Rakočević (Belgrade, Yugoslavia)

Laser Photoetching, Photodissolution and Ablation

Pattern formation techniques in photochemical etching 252
C. I. H. Ashby (Albuquerque, NM, USA)

Silver photodissolution in amorphous chalcogenide thin films 259
R. El Ghrandi, J. Calas, G. Galibert and M. Averous (Montpellier, France)

Study of gas-stream-assisted laser ablation of copper 274
H. Guo and Q. Lou (Shanghai, China)

Formation of atomic beams and dynamics of *in situ* superconducting film growth by pulsed-laser deposition 277
H. S. Kwok (Amherst, NY, USA)

Monitoring of photodeposited superconductive films 291
C. H. Chen, R. C. Phillips (Oak Ridge, TN, USA) and P. W. Morrison (E. Hartford, CT, USA)

Basic elements for photodeposited high T_c thin film devices 304
J. Flokstra, R. P. J. Ijsselsteijn and J. W. M. Hilgenkamp (Enschede, Netherlands)

Pulsed laser deposition of oxide superconducting thin films 310
X. D. Wu, S. R. Foltyn, R. C. Dye, A. R. Garcia, N. S. Nogar and R. E. Muenchausen (Los Alamos, NM, USA)
